--------------------- COMBO-C Initiated ----------------------

Select mode for COMBO-C:
1. Intra-Plate Analysis
2. Inter-Plate Quality Control & Analysis
2

---- Inter-Plate Quality Control & Analyses ---

Global Experiment Path: F:\CUSP9A\Mendeley\1-4

Enter hours after drug addition for the 1st recorded time point/frame:
0

Inter-Plate results successfully parsed...

Enter number of simulations for the resampling-based NHST:
1000000

Enter probability of false alarm (%) for the NHST:
5
